Society of Dermatology Pharmacists — Curriculum Vitae Template | Replace or delete this line before sending your resume

PROFESSIONAL SUMMARY

[Doctor of Pharmacy (PharmD) candidate | Licensed Pharmacist (PharmD)] with [a clinical foundation in | over [X] years of practice in] dermatologic pharmacotherapy across topical, systemic, and biologic treatment modalities. Combines training in disease states such as psoriasis, atopic dermatitis, acne, rosacea, hidradenitis suppurativa, and skin cancer prevention with [emerging | demonstrated] strengths in patient counseling, medication therapy management, and cosmetic/OTC skincare consultation. Active member of the Society of Dermatology Pharmacists (SDP), engaging in [chapter programming, committee work, or community initiatives — describe your specific involvement]. Aspiring to [career goal — e.g., dermatology-focused clinical or specialty pharmacy practice, biologics/specialty pharmacy management, dermatology industry medical affairs, compounding pharmacy with a dermatology focus] — applying clinical judgment across the full spectrum of dermatologic care, from topical and OTC therapies to complex biologic regimens.

EDUCATION

[University Name — School of Pharmacy] | [City, State]

Doctor of Pharmacy (PharmD) [— Dual Degree, e.g., PharmD/MBA — delete if not applicable] | [Expected Month Year — students | Conferred Month Year — professionals]

PharmD GPA: [X.XX] / 4.00 [Include for students and recent graduates; delete if several years post-licensure]

Relevant Coursework: [Dermatologic Therapeutics | Cosmetic Science | Immunology | Advanced Topical & Compounding Pharmacy — Delete if not applicable]

Certificate Program: [e.g., Dermatology Pharmacy Certificate | Cosmetic Science Certificate — Delete if not applicable]

PharmD Honors: [Rho Chi Pharmacy Honor Society | Dean's List | Society of Dermatology Pharmacists (SDP) — Delete if not applicable]

CLINICAL & PROFESSIONAL EXPERIENCE — DERMATOLOGY FOCUS

[Students: list Advanced Pharmacy Practice Experience (APPE) rotations in dermatology-focused settings below. Professionals: list relevant positions in reverse-chronological order.]

[Dermatology Clinic / Specialty Pharmacy / Health System Name] | [City, State]

[Rotation/Role Type — e.g., Dermatology APPE | Specialty Pharmacy, Biologics | Clinical Pharmacist, Dermatology] | [Month Year] — [Month Year / Present]

- [Describe accomplishment — e.g., Managed prior authorization and benefits investigation for biologic therapies (e.g., IL-17, IL-23, and TNF-alpha inhibitors) for patients with moderate-to-severe psoriasis and hidradenitis suppurativa, coordinating with prescribers to reduce therapy initiation delays]
- [Describe accomplishment — e.g., Counseled patients on self-injection technique, adverse effect monitoring, and adherence strategies for biologic and systemic dermatologic therapies]
- [Additional accomplishment with action verb, therapeutic focus, and measurable scope or outcome]

[Community Pharmacy / Retail Health System / Cosmetic Dermatology Practice Name] | [City, State]

[Rotation/Role Type — e.g., Community Pharmacy APPE | Staff Pharmacist | Cosmetic Consultation Pharmacist] | [Month Year] — [Month Year / Present]

- [Describe accomplishment — e.g., Provided OTC and cosmetic skincare consultations, including sunscreen selection, retinoid initiation counseling, and acne or rosacea management, for [X] patients weekly]

- [Describe accomplishment — e.g., Screened medication regimens for photosensitizing drug interactions and provided photoprotection counseling as part of routine dispensing]
- [Additional accomplishment with action verb and patient care or consultation context]

[Site Name — e.g., Compounding Pharmacy | Hospital Dermatology Consult Service] | [City, State]
[Rotation/Role Type — e.g., Compounding Pharmacy | Inpatient Dermatology Consult | Drug Information] |
 [Month Year] – [Month Year / Present]

- [Describe key clinical accomplishment or competency developed — e.g., Compounded topical formulations per prescriber specifications in accordance with USP <795> non-sterile compounding standards]
- [Describe additional accomplishment or competency with scope and outcome]

INTRODUCTORY PHARMACY PRACTICE EXPERIENCES (IPPE)

[Students only — delete this section if not applicable.]

[Site Name — e.g., Community Pharmacy | Dermatology Clinic | Long-Term Care Facility] | [City, State]
[IPPE Type — e.g., Community Pharmacy IPPE | Institutional IPPE] | [Month Year] – [Month Year]

- [Describe practical skill or learning with action verb — e.g., OTC/skincare consultation, patient counseling, or operational context]

RESEARCH EXPERIENCE

[Principal Investigator Name, Credentials] Laboratory / [Research Center or Institution — e.g., Dermatology Clinical Research Unit] | [City, State]

Research Assistant / Research Collaborator | [Month Year] – [Month Year / Present]

- [Describe research contribution — e.g., Conducted literature review and data abstraction for a comparative effectiveness study of biologic therapies in moderate-to-severe atopic dermatitis, supporting manuscript preparation]
- Contributed to preparation of [abstract / poster / manuscript] for submission to [conference / journal — e.g., American Academy of Dermatology (AAD) Annual Meeting | Journal of the American Academy of Dermatology (JAAD)]
- [Additional contribution — e.g., Evaluated real-world adherence patterns for topical corticosteroid regimens in pediatric atopic dermatitis, supporting a quality-improvement or evidence-synthesis initiative]

PROJECTS & INITIATIVES

[Optional — showcase a project, publication, or practice initiative relevant to dermatology pharmacy. Delete this section if not applicable.]

[Project Title] | [Institution / Organization / Practice Site]
[Semester Year — for students | Month Year – Month Year — for professionals]

- [Describe project — e.g., Developed a patient-facing photoprotection and sunscreen-selection guide distributed through a clinic, pharmacy, or the SDP resource library]
- [Describe your role and methodology — e.g., Led literature review and content development, drawing on clinical guidelines for [disease state] to ensure accuracy]
- [Describe outcome or reach — e.g., presented findings to [audience]; resource adopted by [X] site or reached [X] patients]

LEADERSHIP & PROFESSIONAL ACTIVITIES

[Organization — e.g., Society of Dermatology Pharmacists (SDP) | PhASEd | [State] Pharmacists Association] | [City, State]

[Title — e.g., Member | Committee Member | Chapter Officer] | [Month Year] – [Year / Present]

- [Describe leadership accomplishment — e.g., Contributed to development of CE programming, resource library content, or member survey infrastructure as part of an SDP committee or working group]

[Organization — e.g., Rho Chi Pharmacy Honor Society | PharmD Dermatology Interest Group | [State] Pharmacy Association]

[Role — e.g., Inducted Member | Founding Member | Attendee — Delete if not applicable] | [Year]

LICENSURE & PROFESSIONAL DEVELOPMENT

NAPLEX: Expected [Month Year] [Update with score upon completion; delete if already licensed]

MPJE: Expected [Month Year] [Update with score; delete if not applicable in target state]

BLS / ACLS: [American Heart Association] | Expires [Month Year]

Certifications: [e.g., APhA Pharmacy-Based Immunization Delivery Certificate | USP <795>/<797> Compounding Training | Certified Medical Representative (CMR) | HEOR Certificate | Google Analytics Certification | Tableau Desktop Specialist | PMP — delete if not applicable] | [Issuing Organization] | [Year]

Professional Memberships: [e.g., ISPOR | Drug Information Association (DIA) | Healthcare Businesswomen's Association (HBA) | PM360 Emerging Leaders | Academy of Managed Care Pharmacy (AMCP)]

Presentations / Publications: [e.g., Poster: "[Title]" — ISPOR Annual Meeting, [Year] | "[Article Title]" — [Journal / Publication, Year] — Delete if not applicable]

SKILLS

Dermatologic Pharmacotherapy: Topical corticosteroids, retinoids, and antifungals; biologics (e.g., IL-17, IL-23, IL-4/13, and TNF-alpha inhibitors); oral immunomodulators and JAK inhibitors; management of psoriasis, atopic dermatitis, acne, rosacea, hidradenitis suppurativa, and skin cancer prevention

Cosmetic & OTC Consultation: Sunscreen and photoprotection counseling, active-ingredient and skincare regimen consultation, compounding of topical formulations, vehicle selection, cosmeceutical ingredient safety

Clinical & Patient Care: Medication therapy management, adverse effect monitoring, self-injection and adherence counseling, drug utilization review, literature evaluation and critical appraisal

Analytics & Research: Systematic literature review, evidence synthesis, PubMed, Embase, Cochrane, [R / SAS / Excel — include only if applicable], data abstraction

Technical: Microsoft Office Suite, Lexicomp, Micromedex, [EHR — e.g., Epic / Cerner — if applicable], [compounding software — if applicable]

Languages: [Language] ([Proficiency Level]) [Delete this line if not applicable]
